

Quick Install Guide

ENTERPRISE WI-FI

Safety Precautions

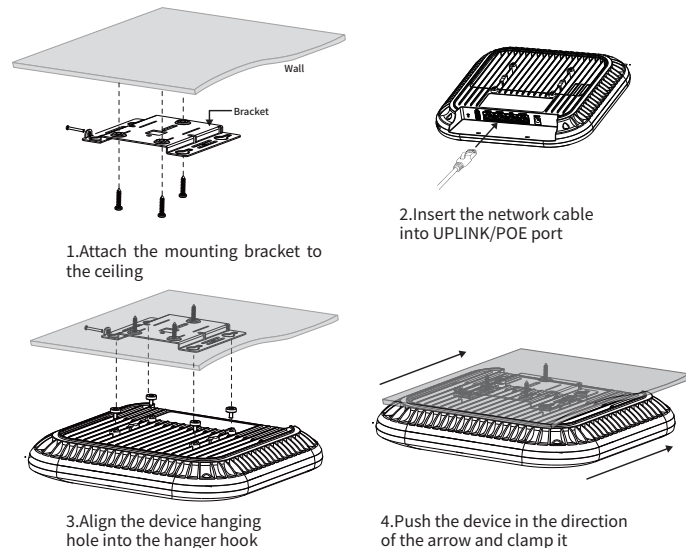

- Please visit www.foryoulink.net to download the latest documentation, firmware, and product specifications.
- Keep the device out of the reach of children. Components and accessories are small and could pose a risk of choking.
- Ensure that the power adapter complies with KC certification requirements and has been tested and approved according to applicable national or local standards. Do not use non-approved power adapters; otherwise, the device may malfunction or become unsafe.
- For details about requirements on operating and storage temperatures, see the operating temperature specifications in the product documentation. Do not touch the device in high or low temperature scenarios.
- The device has been certified for electromagnetic compatibility. Consult your device manufacturer to determine whether using this device will interfere with your medical devices.
- When removing or replacing the device, take necessary personal protection measures to avoid being hurt by any edges of other devices.

Explanation

- Due to continuous optimization and upgrades of the equipment and software versions, there may be discrepancies between the contents of this manual and the latest implementation of the product. We kindly ask for your understanding.

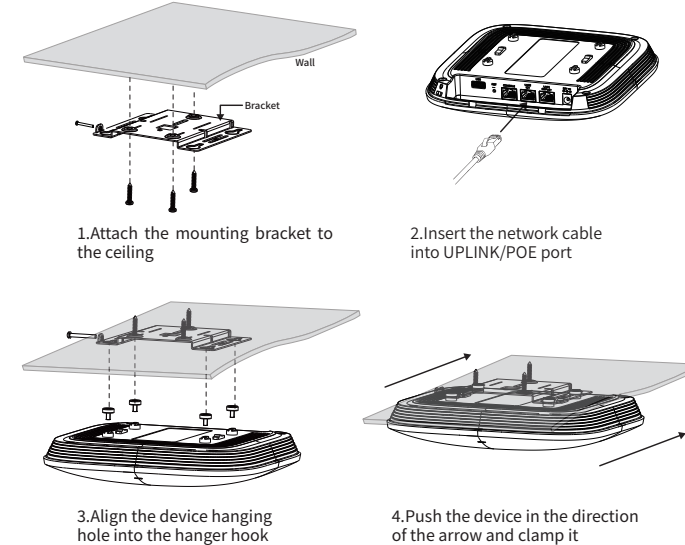

Product Installation

H19000

Product Installation

S9300/C6500

Software Notes

- About APs PoE Input function, H19000 requires switches that support the 802.3bt standard; S9300 and C6500 require switches that support the 802.3at standard.
- The default IP address is:
Fat AP Mode:172.16.10.10/24,Fit AP Mode: 172.16.91.1/24.
- The default user/password is :admin/admin
Attention: For security reasons, it is recommended to change the password after the first login.
- **Fat AP**: Provides an independent web management interface.
Fit AP: No local management interface is provided.Configuration is managed centrally by the AC Controller.
- Explanation of AC Controller linkage conditions:
In the DHCP environment, the AP will obtain the IP address through the DHCP server. When the AP and AC across Layer 3 networks, it is necessary to configure Option 43 or manually configure the AC IP address manually.
- AP's IP Address Confirmation Method in DHCP Environment
(1) Log in to the AP Web UI, there is IP information in the WAN port information.
(2) If AP goes online with AC, it can be viewed on the device list page in AC.
(3) Check the DHCP server lease table in DHCP SERVER.
- Do not power off the device during a firmware upgrade.
- Configuration parameters will be deleted during initialization (factory reset).
- default SSID name is FORYOUAP-XXXX (XXXX is the last four bits of the mac address).
- 2.4G / 5G / 6G Recommended channel bandwidth settings
20 MHz: This frequency band has severe interference, and using a narrower bandwidth can improve stability and anti-interference ability. Recommend using a 20MHz bandwidth.
80 MHz: Recommend using 40MHz or 80MHz. This is the mainstream choice that balances speed and stability.
160 MHz: Recommend using 80MHz or 160MHz. As a newly opened frequency band, it has less interference and can fully utilize high bandwidth to achieve high-performance transmission.
- WPA2 / WPA3 Recommended Security Settings: WiFi7 products strongly recommend using WPA3 encryption.

Statement of Product Hazardous Substance Content Status

The following statement is made on the environmental substances contained in our products:

Parts name 1	Toxic and harmfulsubstances or elements					
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE
PCBA 2	×	○	○	○	×	×
Switch power supply	×	○	○	○	×	×
Metal parts	○	○	×	×	○	○
Plastic and polymer	○	○	○	○	×	×
Cables	×	○	○	○	×	×
Lithium battery	×	○	○	○	○	○
RAM	×	○	○	○	×	×

O: Indicates that the content of the toxic and harmful substance in all homogeneous materials of the component is below the limit specified in SJ/T11363-2006 standard.

X: Indicates that the content of the toxic and harmful substance in at least one homogeneous material of the component exceeds the limit specified in SJ/T11363-2006 standard.

During the environmental protection service life, as long as the service conditions within the environmental protection service life are strictly followed, the environmental substances or elements contained in this product will not leak or mutate.

The environmental protection service life of this product (except lithium battery, memory and switching power supply) is 50 years, the environmental protection service life of lithium battery is 5 years, the environmental protection service life of the memory is 10 years, and the environmental protection service life of switching power supply is 10 years For the service conditions within the environmental protection service life of the product, see the requirements for service environment in the product manual.

Note 1: The statement lists all possible components of our products. The actual parts of each product shall be subject to the physical object.

Note 2: The printed circuit board components include printed circuit boards and their components, such as resistors, capacitors, integrated circuits, connectors, etc

Warranty Notice

- 1.Thank you for purchasing FORYOULINK products. In order to ensure the interests of users, please read the notice so that you can get timely service in case of failure of FORYOULINK products. Please keep this warranty card properly for warranty purposes.
- 2.All FORYOULINK products (including complete machine and supporting parts) sold by FORYOULINK and authorized units of FORYOULINK enjoy one-year warranty service. During the warranty period, if the fault is caused by the hardware problems of FORYOULINK's products under normal use, FORYOULINK will be responsible for free maintenance (excluding consumables and consumable parts).
- 3.When you have a fault with FORYOULINK products, please contact the technical service center through the technical support hotline of support@foryoulink.net (you can also contact the agent), accurately explain the fault phenomenon to FORYOULINK or the agent's technical engineers, and eliminate the faults caused by environment, use and other factors with their help; If it is confirmed that the device needs to be repaired, please provide the product serial number. We will establish records in the EIP system for tracking to ensure that your device is repaired in time, If the device is returned directly without the fault confirmed by FORYOULINK, FORYOULINK cannot guarantee the safety and timely maintenance of the device.
- 4.The following conditions are not covered by FORYOULINK's free warranty, and we will charge for maintenance according to the damage of the product:
- 1)The product damage caused by improper use, improper storage, poor transportation and failure to operate according to relevant product instructions.
- 2)The product is not well grounded, the power supply does not meet the standard, and the product is damaged by lightning or other power systems.
- 3)The product damage caused by hot-swapping the modules and cables that do not support hot-swap.
- 4)The product damage caused by failure to repair at FORYOULINK or FORYOULINK authorized maintenance point.
- 5)The products purchased through informal sales channels (e.g. cross-region sales) or unable to provide the effective purchase certificate.

- 6)The model and serial number of the product applied for repair are inconsistent with the model and serial number of the product actually returned for repair.
- 7)The product serial number is damaged, contaminated, or altered, and cannot identified.
- 8)The product damage caused by irresistible natural disasters, such as earthquake, flood, fire, etc.
- 9)Other non-product quality problems and exceeding the specified warranty period.
- 5.The maintenance obligation guaranteed by this warranty card is only limited to FORYOULINK products. If there are additional maintenance, guidance and other services or transportation freight, FORYOULINK will charge reasonable fees according to the actual situation.
- 6.If there is any objection to the maintenance service provided by FORYOULINK or authorized dealer, you can immediately call FORYOULINK's headquarters. Customer Support:1544-9701
